A LIVING TRUST

A Living Trust which has been properly drafted will avoid Probate if all of your assets are properly titled in the Trust at your death. If you have a Living Trust, you should also have a Will which will control assets that may have been left out of the Trust. For example, if you have a Trust and receive a check from an investment just prior to your death, a Will may be needed to direct the distribution of said funds through your Trust.

You should contact our office to discuss the specific details of a Last Will and Testament and Living Trust.

The cost of a Will can vary depending on the complexity of the Will and the extent of your assets. We will be happy to give you an estimate of our fees.
